AIRPORT EMERGENCY SERVICE

FIRE SAFETY CIRCULAR

To Airport Staff and Tenants,

Implementation of Emergency Response Plans

With the changes of the Fire Safety Act – Fire Safety (Emergency Response Plan), Changi Airport has revised all Fire Emergency Plans (FEP) to Emergency Response Plans (ERP) for Terminal 1, Terminal 2, Terminal 3, CAG Airfreight Terminal and Megaplex 1 with effect from 1 Mar 2014.

2. The ERP is a more comprehensive plan that integrates all the plans (FEP, In Place Protection - IPP and Arson Prevention Plan - APP). The inclusion of other fire-related emergencies like Chemical Biological Radiological and Explosion (CBRE) attacks is dependent on the risk level of their premises. Essentially, the ERP will outline response procedures to all the different types of fire and fire-related incidents (inclusive of mass casualty incident) in the building and stipulate the relevant actions to be taken to protect and evacuate people in the building under different emergency scenarios.

3. Tenants and Airport partners who are interested to have a copy of the relevant ERP can write in to fire.safety@changiairport.com.

4. For further clarifications, please contact us at 65412535 or email to fire.safety@changiairport.com.
