

ENVIRONMENTAL POLICY

Changi Airport Group (CAG) is integral in spearheading Singapore's position as a global air hub. In this regard, CAG is committed to protecting the environment and creating a sustainable future through the following:

- Carrying out our activities in an environmentally responsible manner;
- Preventing pollution together with our business community;
- Optimising our carbon footprint directly associated with our business activities;
- Ensuring that climate change related risks are considered and mitigated in our business planning and operations;
- Complying with all applicable legal and regulatory requirements which relate to environmental aspects of our work;
- Setting environmental targets and implementing action plans to address environmental objectives;
- Seeing to continual improvement of our environmental management system; and
- Providing top management support and adequate resources to realise our strategic environmental goals.
